Product Specification Sheet

EK-FB EVGA X58 Classified 4-SLI

EAN / Part #: 3831109820063

Copper Plexi Copper Acetal

Nickel Plexi

Summary:

- Featuring a unique, modern look copper design High performance Full Board water block for EVGA X58 Classified 4-SLI reference design series motherboards.
- EK FB series water blocks cover all chips on motherboards that require cooling if overclocked.
- An extreme high flow path design and unique increased cooling surface over Northbridge, Southbridge and Mosfets keeps all your motherboard components cool even at highest loads and over clock.
- Blocks base is made of SE CU electrolytic copper.
- High quality CNC manufacturing.
- Leak tested to 2 bar pressure (30psi).
- Safe, noob-proof mounting system with Standoffs.

Key Features:

- Real high flow internal design gives minimum flow restriction which allows lowest possible temperatures, not only at FB water block, but also in the entire water-cooling system.
- Cools NB, SB and VREGs.
- Multiple barb/fitting position allows 2 different fitting configurations. Allows maximum flexibility for water cooling system setup also in SLI/CF.
- Reduces temperatures up to 40°C or more at maximum load.
- Much cooler components allow maximum possible overclocking.

Technical data:

- dimensions of copper base: 289,22 x 188,45 x 7,3mm
- dimensions of acetal top Lv1: 289,22 x 188,45 x 8mm
- dimensions of acetal top Lv2: 158,54 x 65,84 x 8,5mm
- threads: 2 x G 1/4
- fittings: optional, not enclosed
- neto weight: 820g
- bruto weight: 950g

Packing list:

- 1 × Water block
- Mounting mechanism with 12 × POM Acetal standoffs
- Thermal pads
