

Season's Greetings!

We'd like to wish you a joyful holiday season from everyone at EK. To help you get into the spirit, we've included a little DIY gift on the backside of this paper!

Simply scan the QR code below and view easy instructions on how to make your own origami tree, in addition to photos of what our own team made. If you feel so inclined, you're welcome to put your new decoration on your build and share a photo of your **#TreeOnAPC** on social media. We'd love to see your handiwork (both the PC & the tree)!

While we specialize in cooling, we hope you stay cozy & warm as you welcome in the New Year. We look forward to seeing you on the other side of 2022!

Best wishes,
The EK Team
